 - 2. In the above instances, the command responsible for administering the individual's records and accounts will complete blocks 1 through 8, 10, 12a, and 13 through 22 prior to departure for his/her home. The form will not be distributed until final action is directed by the MPC-SEP. In those cases where retirement or discharge is directed, the remaining blocks will be completed and all copies of the form distributed promptly in accordance with paragraphs D and F in this Chapter. If the individual is returned to active duty in lieu of being retired or discharged, all copies of the form will be destroyed.

D. Preparation of the DD Form 214.

- Sources of Information. Data to be entered on the DD Form 214 will be obtained from the following records:
 - a. <u>Enlisted Personnel</u>. PERSRU and Unit Personnel Data Records (PDR's); PMIS/JUMPS database; and other official records.
 - b. <u>Officers</u>. PERSRU and Unit Personnel Data Records (PDR's); PMIS/JUMPS database; and other official records.
 - c. <u>Cadets</u>. Service, health, and pay records, other available records and orders.
- 2. Accuracy and Completeness. The DD Form 214 is an important record of service. It must be accurate and complete in order for it to fulfill the purposes for which it was designed. For the same reasons, only

those items specifically directed are to be entered.

- a. <u>Period Covered</u>. All entries, unless specified otherwise (i.e., blocks 7a, 7b), are for the current period of active duty only from date of entry as shown in block 12a through the date of separation as shown in block 12b. (Note exception, block 13).
- b. <u>Use of DD Form 214WS (Worksheet)</u>. The DD Form 214WS, Worksheet for Certificate of Release or Discharge From Active Duty, will be used in all cases to ensure accuracy, completeness, and economy in the final preparation or the DD Form 214.
- c. Completeness of Items. Block-by-block instructions for the entries to be made on the DD Form 214 are contained in paragraph E of this Chapter. No block will be left completely blank, nor will entries of any kind be made outside the margins of the form. When information is not available or more space is needed, the following instructions apply:
 - (1) <u>Information Not Applicable</u>. When information in a block is not applicable to the member being separated, the notation "None" or "Not Applicable" will be made in the space provided. When the space is limited, the abbreviation "NA" may be used.
 - (2) <u>Unused Space</u>. Whenever there is unused space in a large block, type a diagonal line of "X's" below the typed line.
 - (3) More Space Required. When more space is required to complete or clarify the information contained in a block, enter "See Remarks". If there is insufficient space in block 18 (Remarks), then an entry should be made to read "Continued on Reverse". After the last entry made on the reverse, type an entry "Last Authorized Entry."
- d. <u>Abbreviations</u>. Use abbreviations sparingly. The DD Form 214 is destined for use in the civilian community where there is not a broad familiarity with military abbreviations.

- e. Legibility. Servicing PERSRU's shall take steps to ensure that each copy is completely legible and properly aligned. Some steps to ensure legible copies include: checking the presser settings on the printers; periodically checking and replacing printer heads; or splitting the DD-214 and running through the printer twice. The form is accepted by the Veterans Administration and other agencies to which copies are furnished as an official record of the member's active military service. Clean type will be needed to make legible copies. Prior to distribution, all copies of the DD Form 214 will be checked for legibility and, if necessary, legible copies will be prepared.
- f. Errors and Alterations. The use of the DD Form 214WS (Worksheet) should prevent any errors from appearing on the DD Form 214. If it is necessary to make a change or correction during the typing of the DD Form 214, they will be made neatly and legibly on all copies. Such corrections will be initialed by the person authorized to sign the form. The DD Form 214 is surprinted with a reproducible screen tint on items 1, 3, 4, 12 and 18 through 30 to make alterations readily discernible. No corrections are permitted in the screened areas. Procedures for official changes and corrections to the DD Form 214 after it has been issued are contained in paragraph K of this Chapter.
